

SHEIKH NABEEL

0316-8440955 ◇ Karachi, Pakistan

sheikhnabeel2201182@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Portfolio](#)

OBJECTIVE

Software Engineering student with strong knowledge of C++ and JavaScript. Eager to apply skills and learn through real-world projects and collaborative environments.

EDUCATION

Bachelor of Science in Software Engineering, GIK Institute
CGPA: 3.09/4.00

Expected 2028

SKILLS

Programming Languages:	C++, JavaScript
Web Technologies:	HTML, CSS, React, Tailwind CSS
Databases:	PostgreSQL, MongoDB
Concepts:	OOP, DSA, DBMS
Tools & Technologies:	Git/GitHub, Docker, Linux, Firebase, Cloudinary, Vercel
Soft Skills:	Problem Solving, Teamwork, Willingness to Learn

PROJECTS

METALEDGE - Metal Creation Website ([Live Demo](#)) *JavaScript, React.js, React Router, Cloudinary, Firebase*

- Built a responsive metal fabrication business website with React and React Router, featuring dynamic product pages and one-click WhatsApp ordering.
- Added a Firebase Authentication and Firestore backend, replacing the hardcoded catalogue with a real-time database.
- Built a protected admin dashboard (/admin/login, /admin/dashboard) with Cloudinary image uploads, letting the client manage products without touching code.

PinBoard – Full-Stack Visual Pin Sharing Platform ([GitHub](#) | [Live Demo](#)) *Next.js, PostgreSQL, Prisma, NextAuth.js, Cloudinary, Tailwind CSS*

- Built a Pinterest-inspired full-stack app where users upload pins, create boards, and like/comment on posts.
- Implemented multi-provider authentication (Google, GitHub, credentials) with NextAuth.js and a 6-entity PostgreSQL schema via Prisma.
- Built a REST API with Next.js Route Handlers and server-side session validation; integrated Cloudinary for image delivery, deployed on Vercel.

CryptX - Compression and Encryption Tool ([GitHub](#))

C++

- Built a file compression system using Huffman Coding, achieving 30–40% size reduction on text files.
- Implemented XOR-based encryption/decryption for file-level and text-level security.
- Designed operation history tracking with stack and linked list data structures; collaborated in a 3-member team.

CERTIFICATIONS

- Python Programming Essentials — Rice University
- Object-Oriented Programming in C++: Functions — University of London
- Introduction to Front-End Development — Meta
- Generative AI: Prompt Engineering Basics — IBM
- Additional certifications available on: [Portfolio](#)
